

FLYNN'S CREEK

Landowners and Residents Flynn and Flynn's Creek District

Monash Energy Coal to Liquids Project

Monash Energy wishes to contact landowners and residents in the vicinity of its Exploration Licence # 4681, in order to:

- provide updated project information (including an accurate map of the EL)
- enable discussions about future plans, and
- ensure copies of future Public Notices and similar updates are posted to correct addresses.

Representatives of Monash Energy are currently arranging appointments with landowners. Please call or email per the contact details below.

Please note this request is at the initiative of Monash Energy and there is no obligation to respond.

Early completion of a 'Response Form for Landowners and Occupiers' would greatly assist. Ask for one to be supplied or download from the website.
